## BIENVENUE!

*Cannelle is a French beauty salon group that has been offering continental style beauty therapy in the UK for over a decade. We have 3 salons, two in Oxford - Summertown and within LA Fitness in the city centre - and one in Henley-on-Thames.*

*Cannelle offers an extensive list of first class French beauty therapy, as well as the classic treatments such as manicures, pedicures, massage and warm waxing. Our flagship hot wax technique offers outstanding results on more sensitive areas and is one of the reasons many clients refuse to be treated at any other salon. The hot wax is imported from specialists in France and our therapists' expertise in application guarantees the best results for hair removal. We pride ourselves in providing the very best service for more permanent treatments such as laser hair reduction, Caci Ultimate and Endermologie anti-cellulite treatments.*

*This price list is conveniently small but may not hold all the information you require so please don't hesitate to call with any questions. Our contact details are at the back of this leaflet or visit [www.cannellebeaute.com](http://www.cannellebeaute.com).*

*My expert team of beauty therapists and I look forward to welcoming you to Cannelle and helping you to discover your own unique beauty routine to ensure that you look and feel your best all year round.*

*France Baudet.*

## RESPECTE L'ENVIRONNEMENT

At Cannelle we care for our clients and our environment. By using energy efficient and environmentally friendly products, we make every effort to ensure that we protect the planet whilst we care for you.

While ensuring complete cleanliness and freshness in the salons we endeavour to run all machines using the lowest possible energy and have electricity from energy efficient providers who have sustainability at the heart of their long-term strategy. They embrace the environmental and social issues facing their industry like climate commitments to reduce greenhouse gas emission and minimising their impact on the environment.

We research and use, wherever possible, environmentally friendly washing products. These have been developed to achieve optimum results whilst having the minimum effect on the environment. Produced in ecological factories they are based on sustainable plant and mineral ingredients which have been chosen to work well and limit the chemicals in the environment.

We recycle all waste products possible and encourage our suppliers to deliver products using environmentally friendly packaging.
